ABOUT ME

I am self-sufficient and hardworking individual. My key strengths are responsibility and dedication to the work. I consider each assigned task important and pay as much attention as it is required towards them. My approach of problem-solving is looking into the root of it rather than partial troubleshooting. I can work both independently and in the group, however I much more prefer being a part of a team. Each obstacle I face during the working process awakes the personal interest from my side, what makes me enthusiastic and ambitious worker. I am willing to obtain new knowledge and skills as well as demonstrate competence in the duties and issues I am responsible for.
